SOLUTIONS

**DATA PRIVACY IS AN IMPORTANT TOPIC**

## OMAN 2040 VISION

“We are fully aware of the importance of being ready for the future with its knowledge-based developments and high-paced technological advances, which may require radical transformations across the board. We are equally aware of the importance of responsiveness to the changes taking place around us. It is here that you will play your role today in further contribution to identifying the available opportunities and understanding the challenges we are expected to meet, that the other countries in the region will have to meet as well, not to mention the consequences of the fast-paced developments on the region as a whole, in order to find consensus on our way forward, in alignment with our commitments, towards building the Oman we aspire to by 2040.”

HM Haitham bin Tariq  
Sultan of Sultanate of Oman  
(Chairman of Future Vision Oman 2040)

## SECURITY DATA DESTRUCTION

**We destroy it all!**

**In the name of Allah, the merciful**

The world is changing all around us. Business will continue to thrive over the next ten years and beyond, so we must look ahead. Understanding the trends and forces that will shape our business in the future and moving swiftly will prepare us for what's to come.

For any business to be consistently successful, it must be respected. Respect comes from trust. We at Ideal Solutions work very hard to earn and maintain the trust of our clients. We work to be the best we can be at all times; to be responsive and supportive, to make good decisions fast, to be easy to do business with and to deliver results that delight our clients and partners. Meeting expectations is not good enough. We strive to exceed expectations every single time.

Peace be upon you, Allah's mercy and blessings.
